

## App Developer (iOS, Android)

### Your Motivation.

Are you interested in developing new features for an innovative app that is used by corporations as a successful corporate investment management system?

Do you love mastering challenges, taking over responsibilities, working in a young and talented team and being part of the business success?

Are you open-minded, motivated and like working independently on given tasks?

Do you enjoy a diversified working life?

Don't hesitate - apply! You get the chance to be part of our success story while working in a small and young team on a software for the leaders and board members of the biggest German corporations like the Daimler AG.

### Your Qualifications.

- You have wide knowledge of Objective-C/Swift and Java
- You have already gained experience as an iOS and/or Android app developer
- You are highly quality-oriented and detail-conscious
- You are a team player who is fluent in German and English
- You are familiar with the latest trends of the app development and you love to experiment with new technologies

### Your Benefits.

- ✓ Working with modern work equipment, like MacBooks
- ✓ Different training and development opportunities
- ✓ Flexi working hours and the option to work remotely
- ✓ Participation in the product and company growth
- ✓ Flat hierarchies and fast decision-making
- ✓ Weekly workouts with our personal coach
- ✓ Extraordinary working atmosphere (Air Hockey and Nintendo Wii-Challenge or a DJ desk as creativity stimulation) and fancy team events like laser tag battles or go kart races
- ✓ Possibility to work in the most beautiful German area in the middle of the Allgäu and its gorgeous mountains and lakes where you have lots of outdoor activities to discover

Are you interested or do you have any questions? - We would love to hear from you!
