

Frontend Web Developer

Your Motivation.

Would you love to be part of a young and motivated team and support our developers in the web frontend field?

Are you interested in the development of libraries, tools and user-interfaces?

Do you have a talent for handling modern tools such as SASS and polymer?

Don't hesitate - apply! You get the chance to be part of our success story while working in a young and agile team on a software for the leaders and board members of the biggest German corporations like the Daimler AG.

Your Qualifications.

- You are an expert of the known web technologies such as HTML5, CSS3 and SASS
- You have wide knowledge about JavaScript
- You are familiar with the latest trends in the web frontend field for example web components, flexbox etc.
- You are interested in lifelong learning
- You are open-minded, motivated and you work independently on the given tasks
- You are fluent in German and English

Your Benefits.

- ✓ Working with the most modern work equipment
- ✓ Different training and development opportunities
- ✓ Flexible working hours and the option to work remotely
- ✓ Participation in the active growth of the product and company
- ✓ Flat hierarchies and fast decision-making
- ✓ Weekly workouts with our personal coach
- ✓ Extraordinary working atmosphere (AirHockey and Nintendo Wii-Challenge or a DJ desk as creativity stimulation)
- ✓ Work in the most beautiful German area in the middle of the Allgäu and its gorgeous mountains and lakes where you have lots of leisure and outdoor activities to discover

Are you interested or do you have any questions? - We would love to hear from you!
